Ad Text The U.S. Constitutional Convention signed and adopted the Constitution at Philadelphia's Independence Hall 228 years ago. Since then the U.S. Constitution has been amended twenty-seven times. All of amendments are steps that made the United States the greatest country in the world.

The U.S. Constitution is not only the law, it is the basis of the country. Every true patriot respects it.

Unfortunately, last decade has become the time of nihilism. More and more people don't respect American law. More and more people come to the United States and some of them don't feel reverence for our Constitution. It goes without saying that illegals who already broke the immigration law and will violate the supreme law easily. But the worst thing is that the current president of the United States and some high-ranking officials also spit upon the Constitution. They call for ban the right to bear arms, a confederate flag (I think this flag reflects not slavery, but important part of American history) and some liberals ban even the Old Glory -- a school district in Tennessee has banned all flags and banners, including the U.S. flag -- and so on. The same regards the Iran deal.

America has a hard time. And we have to save the U.S. Constitution. We have to do it in God's name! America has to be great again because we are one nation under God!
